To Whom it May Concern:

This is to verify that I received treatment, both Tuina and Accupuncture, from Master Xiao.

I suffered a tear at the inside of my left knee. I was limping and realized that trying to work it was making it worse. Taking it easy was necessary, but I had to walk.

I had never suffered such an injury.

I went to see Master Xiao about one month after the injury, he treated me with Tuina. I immediately felt improved.

The next visits included Tuina and accupuncture and with each visit I could tell it was the right time and the treatment was effective. I continued to improve greatly after each of the treatments.

Today I am using my knee back as I used to....I credit my perfect healing to Master Xiao, for the healing techniques applied, proved correct.

It was six months ago that the injury occurred.

I recommend Master Xiao for ANY ailment or injury. Master Xiao has knowledge on the most advanced healing techniques today.

Sincerely,

Crystal Martinez
